

ZENITH

SERIES

PROFESSIONAL PERFORMANCE.

It begins with power. Hard-charging power that comes from its commercial-grade 23.5hp Kawasaki® FX V-Twin engine. Acre after acre, hour after hour, it easily cuts through the thickest grass in its path. The ZENITH also stands out in the crowd thanks to its design. From its flowing lines to the detail of its graphics, it's as great to look at as it is to drive – which is extremely comfortably thanks to its premium high back seat with contoured stitching. The ZENITH first turns heads, then turns them orange with envy, as it leaves grass perfectly cut.
