| Lease Amount | Annual Hours | Term (Months) | Customer Payment Factor | Customer Purchase Option % |
|--------------|--------------|---------------|-------------------------|----------------------------|
| \$5,000+     | 250          | 24            | 0.030910                | 43%                        |
|              |              | 36            | 0.023430                | 38%                        |
|              | 400          | 24            | 0.031670                | 41%                        |
|              |              | 36            | 0.023920                | 36%                        |
|              | 600          | 24            | 0.032430                | 39%                        |

Calculate monthly payment by multiplying equipment total by payment factor. Example: \$10,000 equipment cost on 36 month term, 400 hours, is  $\$10,000 \times 0.023920 = \$239.20$  monthly payment (plus tax).
