

2017 EFI SERIES

THIS IS WHAT WE'RE
MADE OF

ARIENS
THE KING OF SNOW

START SMARTER

The Ariens AX EZ-Launch™ EFI engine starts in two simple steps. Just turn the key and fire up on a single pull in any conditions at any temperature.

SIP FUEL. GOBBLE SNOW.

Ariens AX EZ-Launch™ EFI engines create a more fuel efficient combustion, making every drop of gas count and giving you more snowfalls per gallon.

INTRODUCING THE *FIRST SNO-THRO*[®] WITH **EFI TECHNOLOGY.**

KNOWLEDGE IS POWER

Ariens AX EZ-Launch[™] EFI engine features an electronic governor to eliminate speed loss, delivering consistent throwing performance and an ultra-quiet idle.

EZ DOES IT

A completely sealed unit, the EFI fuel system eliminates maintenance costs. It won't gum up in the off-season, so you can pack it away with plenty of peace of mind.

EFI ENGINE

Prepare for launch.

If you're like us, you look forward to the winter forecast. You peer out the window in anticipation of precipitation.

And this year, there's even more reason to look forward to the season. Because now you've got a new trick for Old Man Winter – A new toy to take out to the powdery playground.

There's excitement in the air and an all new Ariens AX EZ-Launch EFI engine in your garage.

SO LET'S GET STARTED.

One turn of the key. One pull to start. No matter what the conditions. The Ariens AX EZ-Launch starts easier, sips less fuel and throws with more consistent power.

**It's one more reason to love the winter season.
And it's only found on Ariens Sno-Thros[®].**
